Director of Curriculum & Instruction  
Erica Reynolds, Ed.D.

April, 2024

Dear Parents, Guardians and Members of the School Community,

I am writing to provide you with information about the **2022-2023 New Jersey School Performance Reports**, which were recently released and are available on the NJ School Performance Reports webpage at [www.njschooldata.org](http://www.njschooldata.org). Click [HERE](#) for District information, [HERE](#) for Conover Road Primary School, [HERE](#) for Conover Road Elementary School, and [HERE](#) for Cedar Drive Middle School.

The School Performance Reports reflect the New Jersey Department of Education's (NJDOE) commitment to providing parents, students and school communities with a large variety of information about each school and district. These reports can be used as a tool to help evaluate whether all students have equitable access to high-quality education. We encourage you to use these reports to:

- Learn more about your school and district
- Start conversations with school community members and ask questions
- Engage with school communities to identify what schools are doing well and where they can improve

The 2022-2023 School Performance Reports include nearly all data that was previously reported prior to the COVID-19 pandemic, such as assessment results and accountability data.

The NJDOE believes that it is critical to use the available data in the reports, along with other information collected directly within districts and communities, to start conversations, identify gaps in information, and continue to find ways to address the impacts of COVID-19 and ensure all students receive the support and resources that they need. The School Performance Reports can and should be used in conjunction with available school and district data to identify priorities for upcoming year planning and the use of state and federal dollars. As data over the last three years was impacted by the pandemic in various ways, the NJDOE does recommend caution in comparing data from year to year.

## What's New in the 2022-2023 School Performance Reports

The 2022-2023 School Performance Reports include changes that respond to stakeholder feedback, federal and state requirements, and data availability. These changes include:

- Student growth data as measured by median student growth percentile for the first time since the 2018-2019 reports;
- Expanded computer science course participation data showing participation for all grades kindergarten through 8; and
- Results from the fall 2023 Every Student Succeeds Act (ESSA) accountability process.

The NJDOE continues to seek public input on ways to improve future reports. You may complete the [feedback survey](#) or email [reportcard@doe.nj.gov](mailto:reportcard@doe.nj.gov) with feedback and suggestions.

Thank you,

*Erica Reynolds*
